

ARMADREX COMPANY PROFILE

Who We Are

Armadox Inc. is an American defense and security company specializing in **consultancy, procurement, and logistics**. We design and deliver solutions that align with the demands of modern warfare, providing integrated support to government agencies, defense and security forces, as well as key players in the defense industry.

Our team is composed of seasoned professionals, **all former members of Special Operation units. Each brings extensive operational experience from diverse theaters worldwide, coupled with strong situational awareness and disciplined mission execution.** This unique blend of expertise enables Armadox to adapt swiftly across different environments and to leverage cultural and regional familiarity as a decisive advantage.

In addition to our core expertise, we develop and integrate advanced solutions across multiple domains. These include **biometric identification and forensic systems for security management, geospatial information systems and 3D mapping for operational planning, Rubox ballistic protection technologies that enhance survivability in complex threat environments, and UAV-assisted surveillance for border and facility protection.** This broad capability set allows us to deliver tailored, end-to-end solutions that directly support mission success.

Legal Authorizations and Supplier Status

Armadox Inc. operates in full compliance with United States federal laws and defense industry regulations. Our registrations and licenses include:

- ITAR Registration (International Traffic in Arms Regulations)
- FFL Type 7, 8, and 11 (Authorization for firearms manufacturing, importation, and destructive device sales)
- SOT Type 3 (Special Occupational Taxpayer for NFA/Category III products)
- DTCC Registration (Defense Trade Controls Compliance)
- AECA Registration (Arms Export Control Act)
- DLA Approved Supplier (Defense Logistics Agency – U.S. Department of Defense)
- SAMS Registered and Approved Supplier (System for Award Management – U.S. Federal Procurement System)

These authorizations enable our company to work directly with government institutions in the U.S. and abroad, procure sensitive defense products, and conduct transfers in full compliance with international regulations.
