

ARMADREX COMPANY PROFILE

About Us

Armadrex Inc. is an American defense company located in Virginia, USA. We specialize in defense logistics, security consulting, and military procurement. Armadrex delivers modern, customized solutions for today's operational environments and provides integrated support to government agencies, security forces, and defense industry partners.

With a team of ex-U.S. and ex-Turkish Special Forces, Armadrex delivers advanced technical and tactical solutions in operational consulting, training, and modernization worldwide. The company's operational agility and multinational expertise enable rapid and effective responses to the evolving needs of its clients.

Our Vision

We strive to be a premier and trusted company contributing to global defense and security by providing modern, sustainable, and innovative solutions, and by delivering integrated logistics, advanced equipment, consulting, and comprehensive operational support.

Our Mission

We enhance the operational superiority and institutional resilience of our clients by delivering mission-focused, tailor-made training and consultancy solutions, underpinned by unique operational expertise.

Legal Authorizations & Supplier Status

Armadrex Inc. operates in full compliance with international and U.S. federal laws and defense industry regulations. Our certifications and licenses include:

- ITAR Registration (International Traffic in Arms Regulations)
- FFL Types 7, 8, and 11 (Licenses for firearms manufacturing, importation, and destructive device sales)
- SOT Type 3 (Special Occupational Taxpayer registration for NFA/Class III items)
- DTCC Registration (Defense Trade Compliance Certification)
- AECA Registration (Arms Export Control Act)
- DLA Approved Supplier (Defense Logistics Agency – U.S. Department of Defense)
- Registered and Verified SAMS Supplier (System for Award Management – U.S. Federal Procurement System)

www.armadrex.com

These credentials enable Armadrex to work directly with government entities both within and outside the United States and to procure and transfer sensitive defense items in full compliance with international regulations.

Areas of Service and Product Expertise

Armadrex possesses extensive capabilities and experience in the following areas:

- Military modernization and field support programs
- Supply of weapons and ammunition (NATO and non-NATO calibers)
- Tactical training, special operations consultancy, and simulation systems
- Advanced logistics and infrastructure solutions for security forces
- Ballistic protection systems (Exclusive representative of Rubox)
- Border security, surveillance, and UAV-assisted control systems
- Field deployment, technical training, and technology transfer programs
